

## END USER STATEMENT *META*Centra

First name and surname: NAME  
Login: LOGNAME  
E-mail: EMAIL

Hereby I certify I have read and understood terms and conditions of use of *META*Center hardware and software equipment and documentation. I will adhere to rules and regulations stated below and to directions of system administrators of respective *META*Center nodes.

I am aware that system and application software installed on *META*Center nodes are subjects to the respective license agreements. I declare I will acquaint myself with software license terms, conditions, and regulations before first use of the software and I will adhere to these. I am aware that the computer equipment and most of the software equipment was purchased solely for academic use with exclusion of all commercial use.

I declare I will adhere to the following rules when working with *META*Center equipment and equipment of each supercomputer center:

1. Account on *META*Center equipment is strictly personal and cannot be lent or otherwise transferred to other individuals. Account must be protected with non-trivial password that must not be disclosed to other individuals nor stored on any accessible place.
2. It is forbidden to perform any activity that could lead to tampering ??property rights?? of owners and authors of available software equipment, especially to copy copy-protected software, to analyze or reverse engineer software protected by a license disallowing to do so, or to run illegitimately obtained software.
3. Any activity leading to privilege escalation above assigned level (access rights, disk space, computer time) on *META*Center equipment is strictly forbidden. Especially it is forbidden to attempt to decrypt passwords of other users, to misuse the defects of systems or software to acquire unassigned privileges. Any activity that could result in obtaining access privileges by unauthorized person or otherwise jeopardize operation of *META*Centra resources is forbidden.

4. Activities that could adversely affect work of other users (e.g. running of jobs with unusually large demands on processor time or computer memory, storage of large amount of data in public directories, overloading of network subsystem, etc.) must be consulted with system administrators in advance and must not be run without prior notice.
5. Confidential data and software of users must be protected by setting proper access rights or using encryption. *META Center* takes no responsibility for misuse of data and software that are property of users.
6. Utilization of *META Center* hardware and software equipment must be acknowledged by users in particular publications (scientific articles, technical reports etc.). Copy of these publications must be made available to *META Center* representatives on demand.
7. Access right is granted for one calendar year. At the end of the year I will deliver short written information about the activities performed and obtained results. *META Center* reserves the right to use this information in annual reports and similar publications.

I am aware that violation of these rules might lead to account constriction and eventual consequences by law. Furthermore I declare that if I learn about violation of these rules I will immediately inform system administrators of *META Center*.

I agree with the fact that my personal information provided in the form "Registration of *META Center* User" will be processed and stored by CESNET, z.s.p.o. for accounting purposes. The above mentioned information will be available only to administrators of computational resources for purpose of identification of users in extent necessary for operation of *META Center* according to law No. 101/2000 (jurisdiction of the Czech Republic).
